

# Rechargeable Security Storage Box

by Space Saver Rowing Systems

## Improve your performance!

We all know the great coaching, performance and safety benefits that can come from smart use of rowing electronics such as CoxBox/CoxMate installations and SpeedCoach systems.

However, these innovations can often come at a price for any school or club.

Every coach has faced the annoyance of discovering that the rowing electronics that assist them have been accidentally damaged, misplaced, stolen or left with uncharged batteries.

Space Saver Rowing Systems can help improve your performance on the water by improving your performance off it!

## Secure and efficient

- > Store up to 20 Cox-Boxes with space for other small electronic equipment
- > Recharge while securely stored
- > ASIO security rating
- > Made from high grade steel
- > Electronic Combination lock
