

## ROWING ACCESSORY GUIDE

BOAT TYPE	MONITOR MOUNTING OPTIONS			Cruz Monitor Mount (MBC-5000) Order Separately	Telescoping Pole Needed to use MBC-5000? Order Separately
<b>DESCRIPTION</b>	Rail Mount (MV-500RM) Included in Cruz Kit	Flush Mount (MV-700SCC) Included in Cruz Kit	Cruz Monitor Mount (MBC-5000) Order Separately	Adjustable pole mounts on foot stretcher tracks using standard T-bolts. Provides mounting surface for Rail Mount or Cruz Monitor Mount when foot stretcher is not suitable or is blocked by wing rigger.	
<b>ALDEN</b>	Adjustable swivel clamp connects to most foot stretchers and some riggers (up to 2")	Low-profile suction cup with single hinge adheres to most smooth, relatively flat deck surfaces. Does not adhere well to rough carbon weave.	Flat aluminum bracket with adjustable clamp, monitor pivot, and quick release. Can be left in boat. Can be permanently mounted in Fluidesign.	No	
<b>EMPACHER</b>	Yes	Yes	Yes	Yes. Pole may need to be customized with metric threads.	
<b>FILLIPPI</b>	Usually no	Yes	Yes, may require TPM	Yes. Pole may need to be customized with metric threads.	
<b>FILLIPPI</b>	Depends on model	Yes	Yes, may require TPM.	Yes. Pole may need to be customized with metric threads.	
<b>FLUIDESIGN</b>	Yes	Yes	Yes. Can bolt directly to foot plate hole pattern if desired for reduced weight.	No, not compatible.	
<b>HUDSON</b>	Depends on model	Yes	Yes, may require TPM	Yes may need TPM for wing rigger.	

<b>KASCHPER</b>	Depends on model	Yes	Yes	Usually not needed except for wing rigger.
<b>PEINERT</b>	Maybe	Yes	Yes, may require TPM	Yes might be needed.
<b>RESOLUTE</b>	No	Yes	Yes, may require TPM	Yes, can clamp between rails.
<b>VANDUSEN</b>	No	Yes	Yes, may require TPM	Yes, can clamp between rails.
<b>VESPOLI</b>	Depends on model.	Yes	Yes	Only required for wing rigger.
<b>WINTTECH</b>	No	Yes	Yes, usually requires TPM.	TPM usually required due to wing rigger.
<b>WOODEN BOATS</b>	Maybe	Usually no unless wood is coated with a smooth layer of varnish.	Often can clamp to rib or foot stretcher	Usually not needed although may be useful in some cases.
<b>OTHER TYPES</b>	If in doubt send us a photo of your foot stretcher area and we can recommend a solution. Some boats will require some trial and error. Note that the MBC-5000 can be modified or bent as needed in special cases.			

<b>Camera Mounting Options for different bow types</b>	<b>Flush Mount (MV-700SCC)</b> included in Cruz kit	<b>Tall Mount (MV-600SCM)</b> Order Separately	<b>Rail Mount (MV-500RM)</b> on V-splash one included with Cruz, may be used for Monitor or Camera.
Smooth Carbon Fiber Deck (angled, gently curved, or flat)	Mount midway between bow ball and V-splash. Not recommend for wooden decks.	Optionally, use the tall suction cup to get a better view over the boat and waves. Not recommend for wooden decks.	Not preferred.
Plastic film or cloth typical of wooden shells	No	No	Yes. It may also be possible to clamp to a separate mount elsewhere on bow.
